Crown was a member of the famous Sixth Marines, and participated in some of the most bitter fighting of the war. After his discharge he secured employment with an insurance agency in Philadelphia. About four weeks ago he became ill, complained of blindness and was told by a physician to go to bed. The next day he was found in a stupor in his room. He was fed by artificial means for more than three weeks, and never fully regained consciousness.

HAVE COLOR IN CHEEKS
Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.
Dr. Edwards' Olive Tablets—a substitute for cod liver oil—were prepared by Dr. Edwards after 17 years of study. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like cod liver oil—yet have no dangerous after effects. They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two nightly and note the pleasing results.

FAVORABLE REPORT MADE ON COMPULSORY EDUCATION

Senate Committee Also Approves Election of Trustees by People of Counties.

Amendments to the State Constitution proposing compulsory education and the election of school trustees by the people were favored yesterday by the Senate Committee on Public Institutions and Education, which reported out two resolutions making radical changes in the educational plan of Virginia. One resolution embodying four separate changes was split in four sections, only one of which, that proposing the election of trustees by the people and making the county instead of the district the unit, received favorable action.

School bills will receive the attention of the Senate again today when they come up as a special and continuing order at 12:30 o'clock. As the Senate convenes at 10 o'clock, an effort may be made to advance the time for considering the school measures, but this will be opposed by those favoring setting the calendar clear of the accumulation of the past week. While the calendar is in fair shape, many Senators fear that further clogging may react unfavorably later in the session when the measures reach the House.

You Need Not Suffer From Catarrh

But You Must Drive It Out of Your Blood to Get Rid of It Permanently.

You have probably been in the habit of applying external treatments, trying to cure your Catarrh. You have used sprays, washes and lotions and possibly been temporarily relieved. But after a short time you had another attack and wondered why. You must realize that catarrh is an infection of the blood and to get permanent relief the catarrh infection must be driven out of the blood. The quicker you come to understand this, the quicker you will get it out of your system. S. S. Specific Company, 251 Swift Laboratory, Atlanta, Ga., Adv.
